EXPERIENCE

SENIOR SOFTWARE ENGINEER *Nov 2017 - Present*

Treez Inc | Oakland, CA

- Developed full-stack applications using Node.js, Java, TypeScript, React/Redux, AWS, MySQL, PostgreSQL, and more.
- Designed and implemented integration with state compliance tracking systems (Metrc and BioTrack), enabling clients to meet regulatory requirements in real time.
- Managed reliable and scalable data transfer between distributed systems via APIs, event-driven architecture, and message queues.
- Provided on-call support across multiple teams and domains, ensuring high availability, rapid incident response, and cross-functional production issue resolution.
- Led teams in Scrum ceremonies and architecture design, promoting cross-team collaboration, stakeholder alignment, and delivery of scalable, maintainable solutions.
- Experienced in decomposing monolithic applications into microservices to enhance scalability, resilience, and deployment agility.
- Embraces a startup mindset by moving quickly, making practical tradeoffs, and focusing on delivering value to clients and the business.

CERTIFICATION

AWS Certified Cloud Practitioner
Amazon Web Services (AWS) - *Sep 2021*

Professional Scrum Developer™ I (PSD I)

Scrum.org - July 2022

EDUCATION

BS Software Engineering

May 2017

San Jose State University

Minor in Mathematics

SKILLS

- TypeScript
- Node
- Java
- AWS Cloud
- PostgreSQL
- MySQL

FRAMEWORK

- Serverless
- Express.js
- Spring Boot
- React.js
- Redux.js

DEVELOPMENT

- AWS
- Jenkins
- Docker
- Claude.ai

INTERESTS

- Foodie
- Sports
- Rock Climbing
- Traveling
- Gaming
